|--|--|
| A= BUILDING WIDTH                              | Q= DOUBLE 2x TOP PLATE                       |
| B= BUILDING LENGTH                             | R= SIDING FINISH                             |
| C= WINDOW WIDTH                                | S= SHEATHING/ UNDERLAYMENT INFO              |
| D= DISTANCE TO WINDOW                          | T= WALL FRAMING SIZE & SPACING               |
| E= DISTANCE TO DOOR                            | INSULATION VALUE                             |
| F= PANEL LOCATION, IF APPLICABLE               | U= SILL PLATE INFO & ANCHOR SIZING & SPACING |
| G= ELECT. OUTLETS, IF APPLICABLE               | V= EXIST. GRADE                              |
| H= WINDOW TYPE & SIZE                          | W= CLG. FINISH, IF APPLICABLE                |
| I= FLOOR INFO & DESCRIPTION                    | X= WALL FINISH, IF APPLICABLE                |
| J= DOOR TYPE & SIZE                            | Y= FLOOR CONSTRUCTION INFO                   |
| K= WALL HT./ ROOF BEARING                      | Z= FOUNDATION/ FOOTING CONSTRUCTION INFO     |
| L= OVERHANG WIDTH                              | AA= HT. OF PEAK FROM GRADE                   |
| M= FOOTING DEPTH FROM GRADE                    | BB= HT. OF WINDOW ABOVE FLOOR                |
| N= ROOFING FINISH & UNDERLAYMENT               |  |
| O= ROOF TRUSS OR RAFTER FRAMING SIZE & SPACING |  |
| P= ROOF FRAMING STRUCTURAL CONNECTION          |  |

## PLAN NOTE:

IF THE BUILDING IS HEATED/COOLED, SHOW LAYOUT ON PLANS AS WELL. IF THE BUILDING HAS PLUMBING YOU NEED TO PROVIDE PLUMBING LAYOUT PLAN AS WELL. IF THE BUILDING HAS ELECTRICAL NEED TO PROVIDE AN ELECTRICAL/LIGHTING PLAN.
