## Current Financial Reports

The Finance Department completes a quarterly review to measure Greenwood's long-term financial goals:

- Practice fiscal discipline, operate structurally balanced budgets
- Rebuild balances for major funds, specifically the Rainy Day Fund
- Issue highest level of financial reporting available

## Annual Budget

Thanks to dedicated fiscal planning and management, Greenwood enjoys a positive financial position.

The city's Rainy Day Fund and reserves have increased by more than 30 percent from 2012. Every city account is now close to or above a 50 percent reserve, and Standard & Poor's Rating Services recently

A photograph of an older man and woman in a crowd, likely at a festival or fair. The man, on the left, has grey hair and is wearing a blue short-sleeved button-down shirt. He has a red, white, and blue ribbon around his neck with a circular medal hanging from it. The medal features a white eagle silhouette on a dark background, with the words "36th ANNUAL" at the top and "NATIONAL ANTIQUARIAN SOCIETY" at the bottom. The woman, on the right, has short brown hair and is wearing glasses and a sleeveless top with a colorful floral pattern. They are both smiling and looking at each other. The background is a blurred crowd of people and trees under a bright sky. The text "QUALITY OF LIFE" is overlaid in large white letters across the middle of the image.

MARGARITAVILLE

A close-up photograph of a blue metal shovel digging into dark, rich soil. The shovel's blade is partially buried, and its handle extends upwards. The background is a blurred landscape of dry grass and earth. Overlaid on the center of the image is the text 'ECONOMIC DEVELOPMENT' in a large, bold, white sans-serif font. On the shovel's blade, the 'WÜRTH' logo and some smaller text are visible.

# Unified Development Ordinance (Zoning Code)

In an effort to assist and promote responsible development, the City of Greenwood has adopted a new Zoning Code. The new code – which had not been updated in nearly 40 years – creates a more efficient and user-friendly land use and development process.
